

EXHIBITION AREA

Beyond Health & Techmedic 2026

Beyond Health & TechMedic: where innovation in health translates into partnerships, investment, and business.

Beyond Health & Techmedic is not just a congress or an international exhibition; it is an ecosystem designed to connect knowledge, innovation, investment and business in one place.

Exhibition areas:

STAND PREMIUM 6x6m	The Premium Stand option is designed for organizations seeking maximum presence and visibility during BH&T. Located in high-traffic areas, this 6 x 6 meter (36 m ²) space offers a prime platform to showcase products, technologies, services, and innovations, develop immersive experiences, conduct live demonstrations, and hold business meetings in a spacious, comfortable, and highly representative brand environment.
STAND PRO 4x4m	The Pro Stand offers an ideal balance of space, visibility, and investment. Measuring 4 x 4 meters (16 m ²), it allows for a professional exhibition with ample space to showcase solutions, greet visitors, conduct demonstrations, and strengthen the organization's commercial presence. It is an excellent option for companies that want to project a strong and competitive image during the event.
STAND REGULAR 3x3m	The Regular Stand, with an area of 3 x 3 meters (9 m ²), is the standard participation option in the exhibition area. It is designed for companies, institutions, and organizations seeking to present their products or services effectively, establish contact with potential clients, generate business opportunities, and strengthen their position within the innovation and healthcare ecosystem.
STAND START-UP 2x2m	The Startup Booth has been specially designed for startups, emerging companies, innovative projects, and growth-stage organizations that want to showcase their solutions with an affordable investment. Its 2 x 2 meter (4 m ²) space provides an excellent opportunity to present value propositions, validate technologies, generate strategic contacts, and establish relationships with investors, business partners, and potential clients within the BH&T ecosystem.

Installation and assembly of stands

The official opening of **BH&T – Beyond Health & Techmedic** will take place on November 18, 2026, at 9:00 a.m. By that time, all booths and exhibition areas must be fully installed, set up, and ready to receive attendees.

To this end, exhibitors will have November 17 as the primary day to complete the setup, decoration, and preparation of their spaces. General event setup will begin on November 16, 2026, and in special cases or when logistical needs warrant it, some exhibitors may also be able to set up on that earlier date, subject to prior authorization from the Organizing Committee.

Selection of exhibition space

Exhibition space allocation is based on availability at the time of booking. To find the exact location of the stand or area you are interested in and select the option that best suits your business objectives, please contact our team, who will assist you during the review of the exhibition layout and the selection process.

Each exhibitor is free to design and equip their stand according to the event's technical guidelines. Furniture, decoration, and specialized equipment are the exhibitor's responsibility; however, to facilitate your participation, **BH&T** can provide, upon request and at a preferential additional cost, basic furniture and other support elements for stand setup.

The meeting point where health, technology and business converge.
